For many years, the River City Radio Controllers, a local radio controlled model aircraft club located at E. P. Tom Sawyer State Park in Louisville, KY, has held a two-day air show called WINGS FOR KIDS. The purpose of this air show event is to raise money to benefit Kosair Charities.

RCRC proudly contributed \$12,200 to Kosair Charities in 2009 from this event. Over the past ten years, our air show has grown in size and popularity allowing us to contribute more each year. We are looking forward to our biggest year ever, mostly due to the generosity of our neighboring business and individual supporters.

The air show consists of nationally recognized and award winning pilots from throughout the Midwest and beyond who come to show their flying skills and model aircraft for the public. Many of our local pilots participate as well. While not in flight, the airplanes are on display for a closer look by the spectators.

As The Wings for Kids Air Show has grown, holding this event has become more costly. This is why we are asking businesses and individuals to help make this year's event more successful than ever. We have started a "Sponsor the Pilot" program to help with the cost and allow businesses to show their support for Kosair Charities.

For a donation of \$150, we will be able to provide hotel accommodations and food for a pilot that has donated their weekend to fly for the kids. Kosair Charities is a 501(c)-3 nonprofit organization, and your donation is 100% tax deductible. We will provide you with a receipt for your donation. For your donation, your name will be posted on our donor board and you will receive recognition over our PA system during the event. Your company may also place a banner or sign at our event. We are expecting over 2,500 people in attendance so this will be a wonderful opportunity to show our community your support of Kosair Charities and The Wings for Kids Air Show.

If you have any questions about our club or Kosair Charities please feel free to contact us at donorinfo@wingsairshow.org.

Sincerely,

Bill Fluke
